

DORIT'S IMMORTAL AVATARS PRICING

Dorit's **IMMORTAL** avatar is a combination of serious portrait of the client combined with a caricature from the shoulders down of them showing their profession/service. The work is digital. The process takes between three days and a week, depending on whether it's a simple avatar, or has multiple elements, including background, added. The starting price for an **IMMORTAL** avatar is \$800. The fully committed client will pay 100% up front. Dorit will create a black & white sketch (included in the price) from multiple photos, following the client's directions. With the client's approval Dorit will go on to finished art. When the artwork is done Dorit will email or text a proof to the client for confirmation. If the client approves they will pay the balance, and Dorit will email the artwork as a JPEG. The standard size is about 2000 x 3000 px at 300 dpi.
